Experienced Frontend Developer with a proven track record in JavaScript and React.js. Skilled in crafting secure, high-performance web applications with a focus on elevating user experience. Recognized for optimizing developer productivity and driving project success through seamless teamwork across diverse disciplines. Demonstrates exceptional problem-solving abilities and a dedication to ongoing growth and creativity in frontend development. Enthusiastic about harnessing cutting-edge technologies to deliver meaningful solutions and elevate frontend development standards.

SKILLS

Languages	JavaScript, TypeScript
Frontend:	React, Redux, Next.js, Tailwind, Bootsrtap, HTML, CSS, Rest API, Framer Motion, React Router, Redux, React Query, Context API, Vite, Material UI, SCSS, SASS Styled Components
Developer Tools:	Git, Gitlab, Vs Code
Package Managers:	Yarn, npm
Soft Skills:	Agile, Scrum
Communication	English, Turkish, Persian

WORK EXPERIENCE

Frontend Developer — January 2023 — Present
Jarf Kavan Akam — *Remote/Iran*

- Spearheaded security initiatives, including identifying and mitigating vulnerabilities, ensuring stability and integrity of front-end applications
- Led the development and maintenance of Design System Language, ensuring consistency and efficiency across platforms
- Collaborated with cross-functional teams to optimize bundle size of micro-frontend apps, resulting in improved load times

Frontend Developer Intern — September 2023 – January 2023
Anibal Bilişim — *Istanbul, Türkiye*

- Conducted user testing and feedback analysis to continuously improve the website's functionality and user experience.
- Optimized website performance through code refactoring and implementing best practices.
- Crafted compelling and visually captivating designs to enhance user engagement and retention, aligning with modern UI/UX trends and industry standards.

PROJECTS

NexStep Productivity Dashboard
React, Tailwind CSS, React Router, Context API, React Spring, Material-UI

- Developed a comprehensive dashboard integrating a Habit Tracker, To-Do List, and Pomodoro Timer functionalities to boost productivity and focus.
- **Dashboard**: Implemented personalized greetings, provided succinct overviews of daily objectives, facilitated habit tracking, and offered detailed analysis features for enhanced productivity.
- **To-Do List**: Engineered a robust task management system enabling CRUD operations, real-time task handling, prioritization, and completion tracking, enhancing task efficiency and organization.
- **Pomodoro Timer**: Designed a customizable timer feature allowing users to adjust durations and leverage visual cues, fostering improved time management and productivity skills.

SkyQuest: Flight Search Application
React, Tailwind CSS, Material-UI, Framer Motion

- **Date Selector**: Developed an intuitive, calendar-based interface to streamline date selection for users, enhancing overall usability.
- **Search Inputs**: Elevated the search experience by implementing dynamic departure and arrival fields, optimizing user interaction and search accuracy.
- **Flight Details**: Optimized the presentation of flight information to empower users in making informed choices, improving user experience and satisfaction.
